## Items of Note

The purpose of this event was to celebrate the Equinox and foster relationships within our regional Burner community, as well as raise money for Art Grants at our regional burn. We were thrilled that many participants traveled from as far as 3-4 hours away to attend.

To minimize costs and waste, the Producer made the decision that Bernal Equinox would not buy anything that would need to be stored, such as DPW items. We also did not give any art grants. This allowed us to put on a killer event on a shoestring budget with a healthy chunk of change raised for art grants at our bigger summer-time event. It also encouraged attendees and artists to embrace 'recycle/reuse' practices in every aspect of planning.

The weather was not cooperative and the temperature was down in the lower teens. This dissuaded many who had hoped to spin fire although a few brave souls went ahead.

The LNT results were much better this year as a result of being very specific with artists and participants that they would need a plan for any trash produced by their contributions.

There was one medical incident. A virgin participant over-indulged in alcohol and we made the decision to call 911 to ensure they received proper medical care. The Emergency Responders were very helpful and accommodating. We later learned the individual had been travelling extensively for 2 days prior to the event and had not slept, which likely contributed to their condition. The next day, they fully recovered and said they fell in love with the WNY Burners.
